<ul style="list-style-type: none"> • Sarah was a good teacher and always available to help me. My other classes interfered with office hours, so she would allow me to come at another time for help. • Sarah Kettelkamp has been the best TA I have had so far at FSU. She is very good at explaining and teaching material in a concise and effective way. • Sarah is a great TA and she did a great job in the class room helping us understand the material and do the labs. as for the lab even though the first day of classes it seems very overwhelming it was very smooth. the material challenged my knowledge of the class and the labs helped me understand the concepts better. • The course was interactive and sarah gave great feedback. she made it clear of what was expected and made the course more managable. • 1st TA I've ever had remember my name so flawlessly and early on.

<ul style="list-style-type: none"> • Instructor Kettelkamp was great to have this semester. She illustrated good knowledge of the material and presented it to the class in an effective manner to understand. She was always willing to help students to understand the material. She gave weekly announcements of what is due during the week and what do expect the following class. I believe it helped that she is a young instructor to help relate to the students and understand our thought processes. • She explained concepts in ways that allowed the students to understand it. • Sarah was very understanding of our time. She knew that none of us wanted to be in a 6-9 pm lab so she did not make anything longer than it needed to be. I felt like the way she taught some things really helped me better understand the lab content and the lecture content. She would go out of her way to help us and make sure we got the best grade we could get by helping better our understanding of the topic. • She was very knowledgeable on the subject matter. She was helpful in answering questions in and outside of the classroom. Demonstrated a drive to pursue further education in the subject matter. Energetic personality, which made the class something to look forward to. • She really cares about her students and she makes the material interesting. I wish she taught all the science labs here. Love her! • Sarah is an awesome teacher and is really engaging in class.
